Mini DisplayPort to DVI-D Single-Link cable

Club 3D UltraAV Mini DisplayPort to DVI-D (Digital) cable enables the connection of your Mini DisplayPort supported computer to a DVI-D supported television, monitor or projector. Simply connect the Mini DisplayPort (male) end of the connector to your computer and plug your existing DVI-D cable from the display into the DVI (female) adapter. Setup is complete, no software installation required. The circuitry built into the adapter seamlessly converts the Mini DisplayPort's video signal into a DVI digital video signal, requiring no external power.

Mini DisplayPort

DVI-D Single-Link

Connector 1
Mini DisplayPort Male

Connector 2
DVI-D Single Link Female
